

## *Wounded Warrior Wives Retreat*

*Encouraging, Educating, and Empowering the Homefront*

**TEXAS – February 3-5, 2012**

Doubletree Hotel  
El Paso Texas

**Operation Homefront** and **TriWest Healthcare Alliance** are proud to present a retreat designed exclusively for members of Wounded Warrior Wives—an Operation Homefront program for female caregivers of injured, wounded or ill service members.

The Wounded Warrior Wives Retreat is filled with opportunities to relax, reflect and rejuvenate. Join us for a relaxing retreat in the Museum District of El Paso. Workshops will feel above the clouds in the meeting rooms on the 17<sup>th</sup> floor. Take advantage of the indoor swimming pool, fitness center, or stroll downtown through the many museums during the recreation time.

Workshops will be facilitated by Hope for the Home Front, an organization celebrated in the military caregiver community. Retreat attendees will:

- Meet other women who love and live with a combat service member or veteran.
- Gain a better understanding of caregiver issues including Secondary Traumatic Stress and Compassion Fatigue.
- Be honored for their service and sacrifice.
- Rekindle hope and renew strength.

Operation Homefront is pleased to offer these events **free** to registered members of the Wounded Warrior Wives program. To become a member of Wounded Warrior Wives, please visit [www.operationhomefront.net/www](http://www.operationhomefront.net/www). Registration begins December 3, 2011.
